Live
line switched on

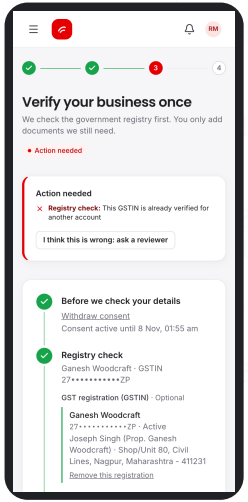

Hard stops: no override, not even by an officer

- Cancelled or suspended GSTIN
- GSTIN, Aadhaar or bank already used by another owner
- PAN does not match the GSTIN
- Issuer signature fails

DPDP Act 2023

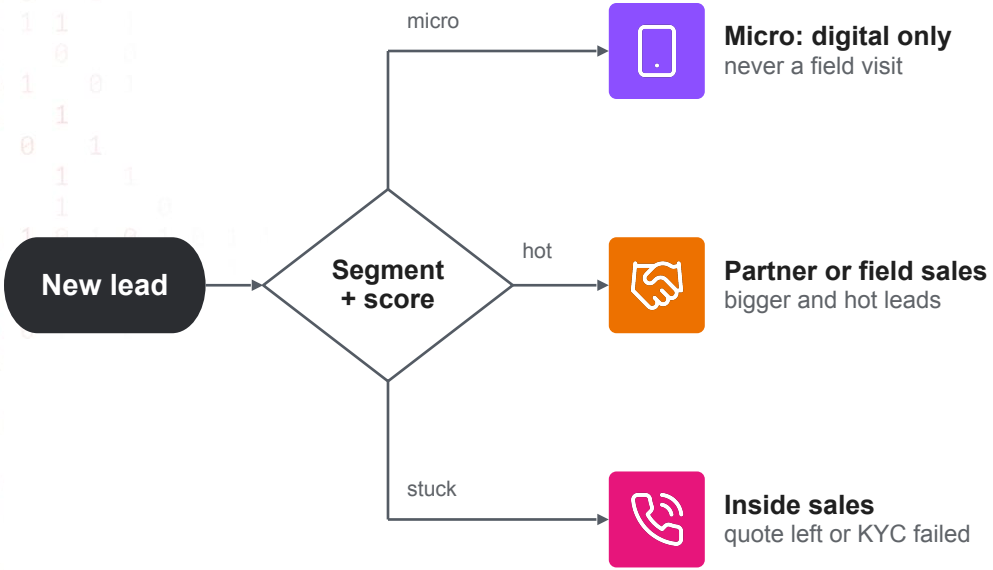

Consent first | One purpose | Minimum data | Masked IDs | Deletion rules

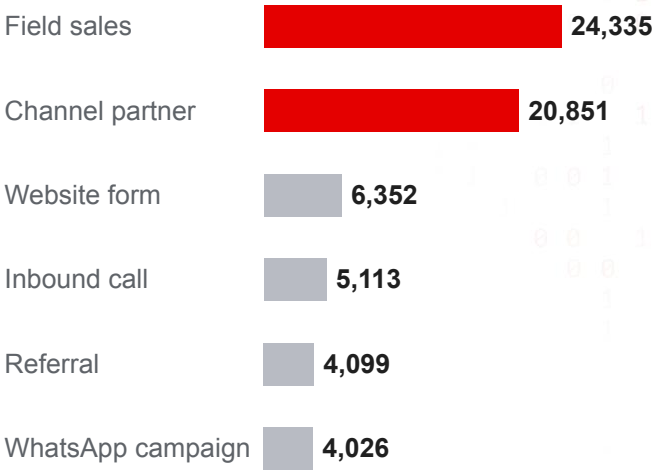

Platform Partner unstop

Digital closes simple leads; partners get the big ones

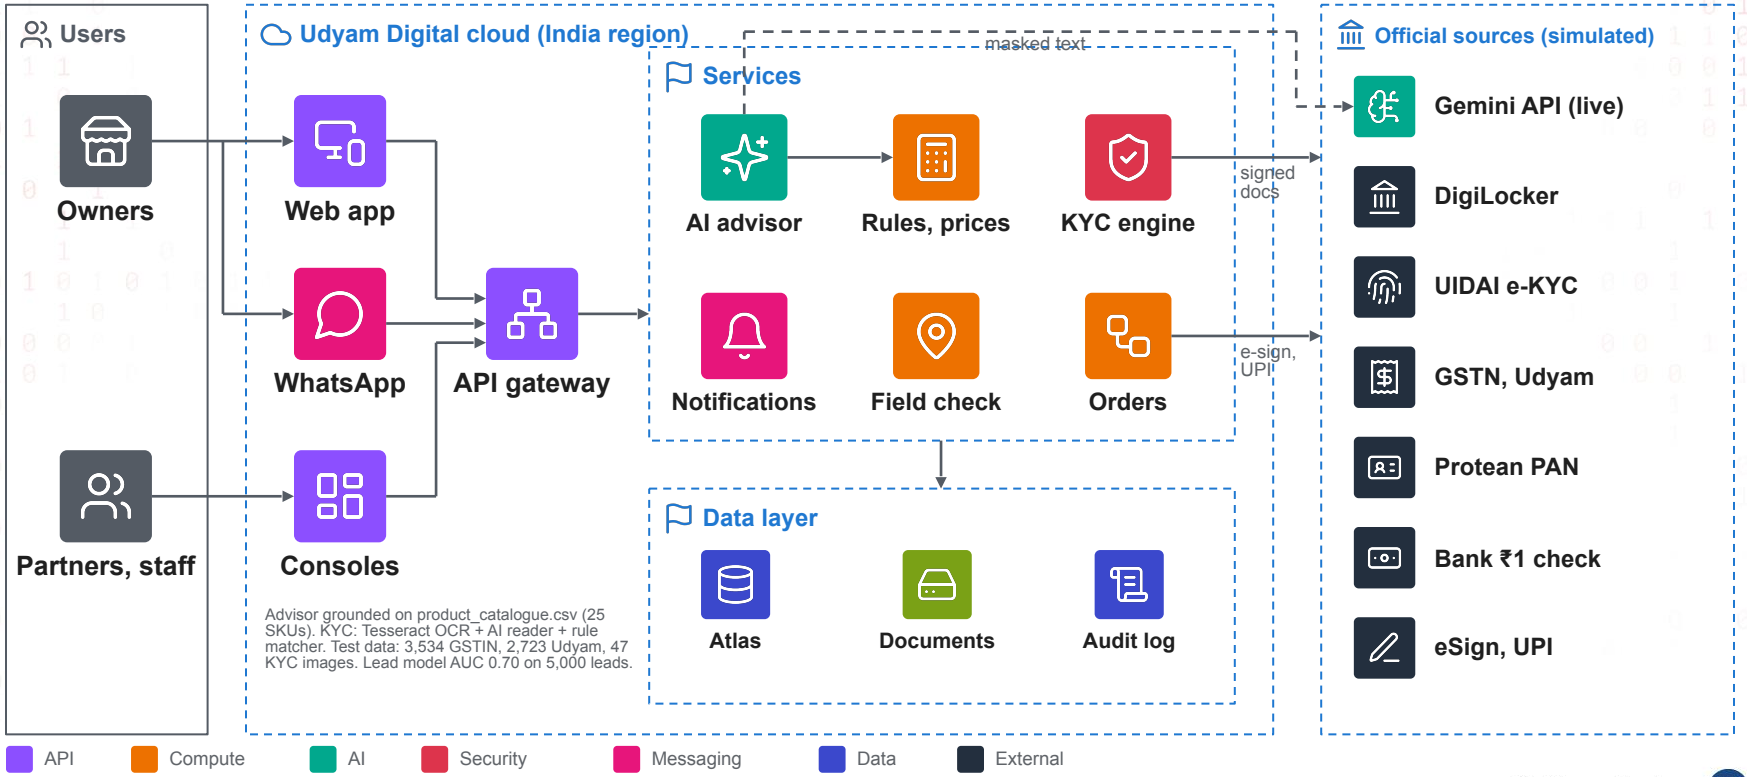

Partner commission paid on activation

Cost per activation by lead source (₹)

Field visits to micro shops: **₹53,026** per activation.
Referrals activate **14.8%**.

AI proposes, rules decide, official sources verify

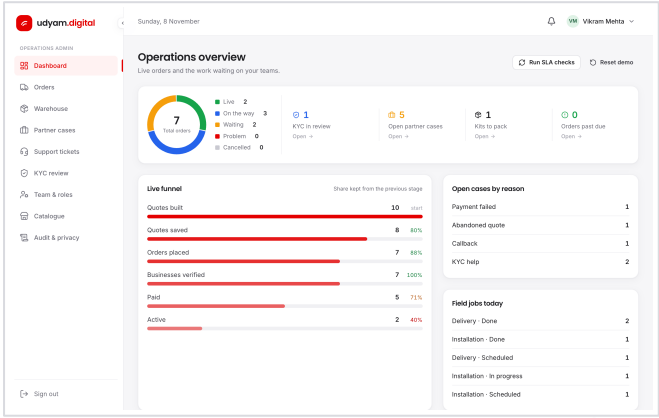

Platform Partner unstop

Five numbers decide the pilot

Lead to activation	7.4% →	**12%**
Days to activate	17.6 →	**≤ 7**
Status calls per customer	3 →	**< 0.5**
Cost per activation	₹15,053 →	**< ₹9,000**
6-month churn	15.2% →	**11%**

Baselines from the case data; targets are our proposal.

The ops dashboard tracks these live

Platform Partner unstop

Roll out in three gated steps

Phase 1: Pilot

2 tier-1 cities · professionals and micro · English and Hindi · KYC provider for DigiLocker, GSTN, PAN

Phase 2: Scale

Tier 2 · multi-site and factories with sales help · WhatsApp · regional languages

Phase 3: National

All circles · telco order and billing integration

Gate: activation, days to live and status calls hit target

AI misreads a document

Two readers plus registry match; a person reviews

Customer data to an outside AI

Masked identifiers, enterprise AI tier, named in the notice

Micro shops are price-sensitive

₹1,198 starter; price test in the pilot

Sales see digital as a threat

Hot leads routed to them; commission on activation
